

FuseDash — Radius / Padding / Gap token audit

Per component: which properties are token-driven (`tokens.ts`) vs hardcoded in the component's own `styles.ts` · Drillsense

✔ **token** — references the theme ✖ **hardcoded** — fixed px in styles.ts ● **mixed** — some token, some hardcoded
● **shape** — intentional circle (50% / 100%) n/a — property not set

COMPONENT	RADIUS	PADDING	GAP
Button	✔ components.buttons.borderRadius	✔ token	✔ token
Card	✔ radii.lg	✔ layout.card	✔ token
Alert	✔ radii.sm	✔ layout.card	✔ token
Notification	✔ radii.sm / 2xs	✔ spacing	✔ spacing
Modal	✔ radii.lg	● token + 16px	n/a
Input	✔ radii.sm	✔ token (util)	✖ 8px, 4px
Textarea	✔ radii.sm	✖ 12px	n/a
Tabs	✔ radii.*	✔ token	● token + 8px icon
DataTable	● token + 4px	● token + 8px 12px...	✖ 6px/4px/8px
Datepicker	● token + 6px	✖ 8px, 0px	✖ 4px
Dropdown	✔ radii.rounded/lg	● mixed	✖ 4px
DropdownItem	n/a	✔ spacing	✔ token
FileUpload	✔ radii.*	✔ buttons	✖ 16px/8px/2px
SlideMenu	✔ radii.md	✖ 10px 16px	n/a
RadioGroup	✔ radii.xs/rounded	✔ token	✔ token
RadioButton	✔ radii.xs	n/a	✖ 8px
Checkbox	✔ radii.xs	n/a	✖ 8px
ProgressBar	✔ radii.rounded	n/a	✖ 4px
Badge	✖ 24px	✖ 2px / 4px	✖ 2px / 3px
Chip	✖ 16/20/24/32px	✖ 4px	✖ 4px
Breadcrumbs	n/a	n/a	✖ 8px
ColorPicker	✖ 6px	✖ various	✖ 8px / 4px
ColorRangeLegend	✖ 8px	n/a	n/a
Legend	✖ 4px	n/a	✖ 8px / 4px
Pagination	✖ 4px (+50%)	✖ 6px 12px...	✖ 4px / 8px
SearchBar	✖ 50px / 20px	✖ 5px	n/a
Sort	n/a	✖ 7px	✖ 8px / 4px
Tooltip	✖ 6px	✖ 8px 12px	✖ 8px
TreeSelect	✖ 32px (indent)	✔ radii.sm/xl	✖ 8px
Toggle	● 34px / 50% (switch)	n/a	✖ 10px
Spinner	n/a	n/a	✖ 2px
Divider	● 50% (dot)	n/a	✖ 8px
Avatar / AvatarGroup	● 100% / 50% (circle)	n/a	n/a
MapElements/Button	● 100% (circle)	✖ 8px	n/a
Link, Loader, RangeSlider, Typography, Widgets	n/a	n/a	n/a

Hardcoded offenders (bypass tokens.ts)

Radius — fixed px (likely should be tokens): Badge 24px · Chip 16/20/24/32px · ColorPicker 6px · ColorRangeLegend 8px · DataTable 4px · DatePicker 6px · Legend 4px · Pagination 4px · SearchBar 50/20px · Tooltip 6px · TreeSelect 32px

Radius — intentional circles (leave): Avatar/AvatarGroup, MapElements/Button, Toggle, Divider, RadioButton dots (50% / 100%)

Padding — hardcoded: Badge, Chip, ColorPicker, DataTable, DatePicker, FileUpload, Input (partial), Modal (fallback), Pagination, SearchBar, SlideMenu, Sort, Textarea, Tooltip, MapElements/Button — plus `layout.card` fallbacks (`'16px 12px'`) in Alert/Card/Modal/Divider

Gap — hardcoded: Badge, Breadcrumbs, Checkbox, Chip, ColorPicker, DataTable, DatePicker, Divider, Dropdown, FileUpload, Input, Legend, Pagination, ProgressBar, RadioButton, Sort, Spinner, Tabs (icon 8px), Toggle, Tooltip, TreeSelect

Takeaways

- **Cleanest (all 3 token-driven):** Button, Card, Alert, Notification, RadioGroup, DropdownItem.
- **Most hardcoded:** Badge, Chip, ColorPicker, DataTable, DatePicker, Pagination, Tooltip, SearchBar.
- `8px gap` is the most repeated hardcoded value — prime candidate to standardize to `spacing.xs`.
- The `layout.card` padding **fallbacks** look token-driven but silently fall back to literal `16px 12px`.
